

EUROPARC

Central and Eastern Europe

Work Plan EUROPARC CEE 3/2016 - 3/2017

Approved by members at the meeting in Hostětín (Czech Republic) 17th March

1) Section Internship Programme

Running opportunity for all members.

2) Small workshops

May 2016: Workshop on invasive species organized by the Hortobágy NP (Hungary)

¼ 2017: Workshop on forest inventory and remote sensing organized by the Šumava National Park (Czech Republic)

3) Seminar/workshop/conference on Natura 2000

The CEE will suggest to the EUROPARC Directorate to organize the event in Ferto-Hanság NP (Hungary), May 2017. Michael Hošek will discuss conditions with the Directorate.

4) Project Proposals

Selected members will prepare the project focused on Natura 2000 overlapping small scale protected areas ("BRICKS"). As "side result" of the workshop on invasive species in Hortobágy NP (May, 2016), basic project proposal to INTERREG (C or Danube) on invasive species will be developed and distributed.

Martin Šolar will be contacted with the aim to explore opportunities for joint activities (projects) with the WWF Adria office).

5) Transboundary working group chaired by the CEE section

Jakub Kašpar and Michael Hošek will be in touch with the Directorate to keep an idea alive. The results is dependent on the new structure and mandates for working groups (clarified during the Annual EF conference in Switzerland, October 2016).
