**Who we are?**

**Beth Cobo**
Born in Barcelona... but in love with la Garrotxa.
Guiding groups from around the world is her passion: tailor made programs is her specialty. It's a naturalist 2.0: you can found her with a notebook, a camera and a butterfly net on the field, or in a social network hanging photos of the last bimbo.

**Jordi Artola**
Garrotxa native, born in Olot. He studied biology and he is naturalist. Extensive experience guiding and knowledge of wildlife of territory, he is the best guide to program holidays: experiences in nature. You can find him any day on a mountain race, with a butterfly net or looking for an insect under a rock.
RESPONSIBLE TOURISM

Tourism “that creates better places for people to live in, and better places to visit”
Walking holidays

We offer guided and self-guided walking holidays.

There’s much more to the Girona Pyrenees than you imagine. There’s a landscape of contrasts with peaks of 3,000 metres, peaceful valleys and magical beauty spots. There’s the Natural Park of the Garrotxa Volcanic Zone, with almost 40 volcanoes blanketed in greenery and Fageda d’en Jordà, an impressive beech forest.
Wildlife tours

Our local English-speaking guides for all visits and routes have a lot of experience and knowledge that enables them to provide an unrivalled series of natural history tours.

Butteflies, orchids, volcanoes, birdwatching... and much more! Let’s discover nature with us!
School groups

Discovering volcanic landscapes
Study trips in the heart of La Garrotxa Volcanic Zone Natural Park led by local English-speaking guides aimed at discovering the secrets of the local volcanic landscape – the largest in the Iberian Peninsula – and the impact of this protected area on the local population and landscape.
