

NEEDS YOU

NATURE

WHO ARE WE?

Youth with different backgrounds and ages between 12-26 having one thing in common: the drive to bring change and the will to protect nature.

WHAT DO WE DO?

We help with nature conservation and Informing others about the importance of protected areas. We educate ourselves on everything nature has to offer. We also travel to other protected areas where we meet new youth and have fun participating in camps and work opportunities.

WHY DO WE DO IT?

For the sake of Mother Earth and since we enjoy spending time in nature where we meet like-minded youth. Furthermore, we want to learn and grow as individuals.

HOW CAN YOU HELP?

It always starts with the little things: recycling, taking your trash with you, informing yourself about the rules in protected areas and sticking to them. You can also join Junior Ranger/Youth+/- Naturvård programs.
