

Report of the 2nd Meeting of the EUROPARC Transboundary Parks Network (TransParcNet)

Nationalpark Neusiedler See - Seewinkel / Fertő-Hanság Nemzeti Park, Wednesday 28th April –
Friday 30th April 2010

Opening of Meeting

Arnold Boer (Chair, Transboundary Steering and Evaluation Committee -STEC) opened the meeting, introduced the STEC and was pleased to announce that all certified parks were represented and two additional invited Transboundary Protected Area complexes (TBPA) were present. In total the participants represented 10 countries. He thanked the hosts Kurt Kirchberger and Attila Fersch for arranging the meeting.

He then asked everyone to stand up to spend a minute's silence in commemoration of Aitken Clark, Jordi Falgarona and Geraint George.

Arnold Boer then looked ahead to the agenda of the meeting.

Introductory Remarks

In his introductory remarks Arnold Boer announced that two further TBPA complexes had been certified since the last meeting: The Prealpi Giulie Natural Park (IT) and Triglav National Park/ Julian Alps Biosphere Reserve (SL) as well as the Bavarian Forest National Park (DE) and Sumava National Park (CZ) .

The network now consist of 8 Transboundary complexes, representing 17 protected areas in 11 countries.

Two guests with interest in the certification process were present at the meeting:

Kosterhavet (SE) - Ytre Hvaler (NO) and

Saxon Switzerland (DE) – Bohemian Switzerland (CZ)

Arnold Boer announced that the host of the meeting Neusiedler See (AT) and Fertő-Hansag (HU) had been reevaluated prior to the meeting and that the result was positive. The TBPAs will be handed the renewed certificate during the EUROPARC annual conference in Italy.

Two further TB complexes are due for re-evaluation this year and will be sent a letter with a self-assessment form.

Arnold Boer then continued to announce that the STEC had during their meeting the previous day been reassured that the Transboundary work remains being seen as a core work of the Federation and that the STEC has been named a standing committee of the Federation. He also noted that no extra financial support can be given from the Federation for the moment, which does for the moment not endanger the TB work, but remains a challenge in the long run for the TB work.

He concluded that TransParcNet needs to strengthen its position within the Federation. Especially since IUCN/WCPA has reactivated its Transboundary activities on a global scale and expects EUROPARC to take a lead for Transboundary topics in Europe. He encouraged the network to think ahead on how it can contribute to the IUCN initiatives in Europe.

Report on further steps from last TransParcNet meeting in 2009 (Lassi Karivallo)

Lassi Karivallo then continued to present the results from the 6 steps that had been agreed at the end of the last meeting to further develop the network and was able to show that they had been met a 100%.

You can find the presentation of Lassi Karivallo on our website:

<http://www.europarc.org/uploaded/documents/394.pdf>

Vision and Mission (Martin Šolar)

Martin Šolar announced that Protected area Managers of TBPAs recognize the importance of a Network like the TransParcNet and the importance to exchange expertise and best case practices amongst the staff working in TBPAs. This was shown in the presence of all transboundary certified parks being present at the meeting.

He then went on to present the first draft of the Vision, Mission and Goals of TransParcNet, which was sent out prior to the meeting. The final version can be found on the EUROPARC Federations Website.

You can find the final vision for TransParcNet on our website:

<http://www.europarc.org/uploaded/documents/393.pdf>

Project Development (Richard Blackman)

Richard Blackman welcomed everybody on behalf of the EUROPARC Federation Directorate and thanked Lassi Karivallo, Kurt Kirchberger and Attila Fersch for all their work in making the meeting possible

He reminded the audience that project development for TB was the third part of the objectives laid out by the EUROPARC strategy 2008-2012.

The discussion focused on the question into which direction project development should go. The two central aspects discussed were:

- Projects to expand the network
- Project that relate to solving challenges TransParcNet members face in TB cooperation

The following suggestions were made:

- To carry out a pre-study to identify the challenges TBPAs stated in their evaluation reports to identify key problems of the network members
- One topic stated was the challenge that legal instruments for TBPAs should be harmonized. As a pre-study every certified TBPA could provide a paper on the legal steps involved for TBPA in their countries
- To create working groups within the TBPA network by topics (environmental education,

visitor management, rural development, etc.)

On the Interreg Vic application idea it was mentioned that this was too ambitious, since costs are involved to write the project and it should rather be looked into other funding options.

It was concluded that projects should focus on:

- Success factors for TB cooperation
- Encouraging EU legislation harmonization
- Communication – raising the profile of TBPAs

You can find Richard Blackmans presentation on our website:

<http://www.europarc.org/uploaded/documents/396.pdf>

Presentation of guest TBPAs

The Kosterhavet (SE) – Ytre Hvaler (NO) TBPAs were given an opportunity to present their TBPAs and their current status of the TB cooperation. On the previous day Saxon Switzerland (DE) – Bohemian Switzerland (CZ) had already presented their cooperation.

Presentation of the European Green Belt Initiative (Alois Lang)

Alois Lang went on to present the audience the European Green Belt Initiative of the IUCN and its current status and challenges.

In the network a new idea was forming: Germany wants to realize a bike road along the former Iron Curtain.

Alois Lang stated that currently incentives for the Central and Southern European PAs are missing to join the initiative. They are not very likely to join at this moment of time.

He explained the background of the project which started with the idea of establishing a network of separate protected areas on either side of the border, forming the Green Belt of Fennoscandia in the early 90s. There are three regional coordinators (Fennoscandia and Baltic, Central Europe – led

by the BUND Germany and South Eastern Europe, led by EURONATUR.

Along the former Iron Curtain about 1400 PAs exist, 393 were mapped by the GIS mapping project. And it was realized that there exists not symmetry in the Nature conservation regimes. The Initiative has recently reactivated its Website and has had an immense media response.

Possibilities for joint projects of the TransParcNet and the Green Belt exist.

More and detailed information can be found at: www.europeangreenbelt.org

Lee Dudley, Greenbelt Coordinator, IUCN Programme Office for South-Eastern Europe, lee.dudley@iucn.org

Alois Lang, Green Belt Coordinator, c/o Fertő-Hanság Nemzeti Park, HU-9435 Sarród
alois.lang@iucn.org

The next Pan European GREEN Belt meeting will be held in Kuhmo, Finland from October 4th-5th.

Workshop Session: Challenges in Transboundary Cooperation (Sigrun Lange)

Sigrun Lange led the participants through an output oriented workshop session focusing on transboundary cooperation challenges and best case practices how they can be overcome.

A separate report on this was produced by Sigrun Lange and can be found at:

<http://www.euoparc.org/uploaded/documents/395.pdf>

Excursion

The Thursday was spent at an excursion learning from the two hosts about the best case examples of Transboundary cooperation, Visitors Management and other Protected Area Management related topics.

Conclusions of the meeting

On Friday morning Sigrun Lange presented a summary of the results of the workshop which identified the most relevant topics for expertise exchange between the TransParcNet members as:

- Sustainable Finance and Funding of Transboundary Cooperation in PAs
- Communication Strategies (Barriers in people's minds)

Richard Blackman then continued to present the output related to project development of the TransParcNet. He noted that the focus for all members was wanted to be on networking and the expertise exchange provided by the meeting.

The suggestion was made to produce in the future a book or brochure presenting the TB certified parks with the aim to communicate the value of TB cooperation better to local stakeholders and to

encourage other PAs to join the network. The book could present best case practices in TB cooperation.

Next Steps

Martin Šolar then continued to present the next Steps after this meeting:

1. To communicate the Vision and Mission which were approved to the wider network
2. To produce two reports of the meeting (1 Workshops output/ 1 Meeting)
3. To produce a questionnaire and collect data on externally funded projects of TB cooperation projects in TBPAs
4. To produce a brochure on the EUROPARC TB certification process and the TransParcNet members
5. The next meeting will be hosted in the end of June 2011 Krkonoše National Park, Czech Republic and Karkonosze National Park, Poland

Concluding remarks

The conclusions of the meeting were approved anomalously.

Arnold Boer concluded the meeting with honoring two of the Network members Lassi Karivallo and Richard Blackman who are leaving the network within 2010.

He then announced that the STEC will be awaiting the application from the Kosterhavet (S) – Ytre Vhaler TBPA (N).

Annex 1 News and Information

Verifications in 2010

No verifications were done in 2010.

Re-evaluations

Neusiedler See – Seewinkel National Park were successfully re-evaluated in 2010. Papers for re-evaluation were sent in 2010 to the Krkonose / Karkonose and Oulanka / Panajarvi and this two pairs of TB parks will be reevaluated in 2010.

IUCN GREEN Belt

The next Pan European GREEN Belt meeting will be held in Kuhmo, Finland from October 4th-5th 2010. Information can be obtained from Kari Lathi.

Annex 3 Meeting Programme

EUROPARC TransParcNet Meeting 27 to 30 April, 2010

Venue

Hotel Johanneszeche, Florianigasse 10, A-7142 Illmitz, Austria

Programme

Tuesday, April 27	
12:30	Bus transfer from Wien-Westbahnhof Railway Station to Hotel Johanneszeche
13:30	Bus transfer from Vienna Airport to Hotel Johanneszeche
14:15	Arrival and registration at Hotel Johanneszeche
15:30	Bus transfer from Wien-Westbahnhof Railway Station to Hotel Johanneszeche
16:30	Bus transfer from Vienna Airport to Hotel Johanneszeche
17:15	Arrival and registration at Hotel Johanneszeche
18:00	Welcome, tour de table and short presentations by potential TransParcNet candidates <ul style="list-style-type: none"> - Kosterhavet (S) – Ytre Vhaler TBPA (N) - Bohemian Switzerland (CZ) - Sächsische Schweiz (D) TBPA
20:00	Dinner at Hotel Johanneszeche
	Accommodation at Hotel Johanneszeche
Wednesday, April 28	
	Breakfast at Hotel Johanneszeche
	EUROPARC TransParcNet Meeting, National Parc Information Centre
08:30	Opening of the meeting and information on present status of TB-issues in EUROPARC: Arnold Boer

09.00	Progress in the development of TransParcNet
	-Report on the further steps set by the first meeting: Lassi Karivalo
	-Fundraising project TransParcNet: Richard Blackman
	-Vision, mission, goals and work programme of TransParcNet: Martin Solar
10:45	Coffee break
11.00	Presentation of the European Green Belt: Alois Lang
11:45	Collecting examples for major challenges and related practised solutions in TB cooperation (each participants is asked to provide one example by briefly completing a questionnaire): Lead by Sigrun Lange
12.30	Lunch
13.30	Participants briefly present their examples written down before lunch (only a few minutes each); based on all examples presented, specific thematic groups will be distinguished. Lead by Sigrun Lange
14.30	Workshop (including coffee break): After a short coffee break, the work in thematic groups will start - based on the examples given before and the lessons learned from those examples (e.g. comparison of those lessons learned; Can the individual lessons learned be transferred to other situations? Can they be generalised? Are they good enough to prevent others from making the same mistakes or facing the same problems etc.)Lead by Sigrun Lange
17.00	Presentation of results by each thematic group. Lead by Sigrun Lange
18.00	End of the day
20.00	Dinner - official invitation by Hans Niessl, governor of Burgenland
Thursday, April 29	
	Breakfast at Hotel Johanneszeche
08.30	Excursion to the National Park Neusiedler See-Seewinkel (Austria)
12.30	Lunch at the "Nationalpark-Boathouse", Fertörakos (Hungary)
13.30	Excursion to the Fertő Hanság Nemzeti Park by boat and by car (Hungary)

19.30	Dinner and winetasting at the “Esterházy Winery”, Trausdorf (Austria)
Friday, April 30	
	Breakfast at Hotel Johanneszeche
08.30-10.00	EUROPARC TransParcNet meeting , National Park Information Centre
	Conclusions of the meeting: Chair Arnold Boer
	(decisions, further steps, next meeting)
10.00	Check-out at the hotel and bus transfer to Vienna
11.00	Arrival at Vienna Airport
