The IUCN Green List Standard

- A ...

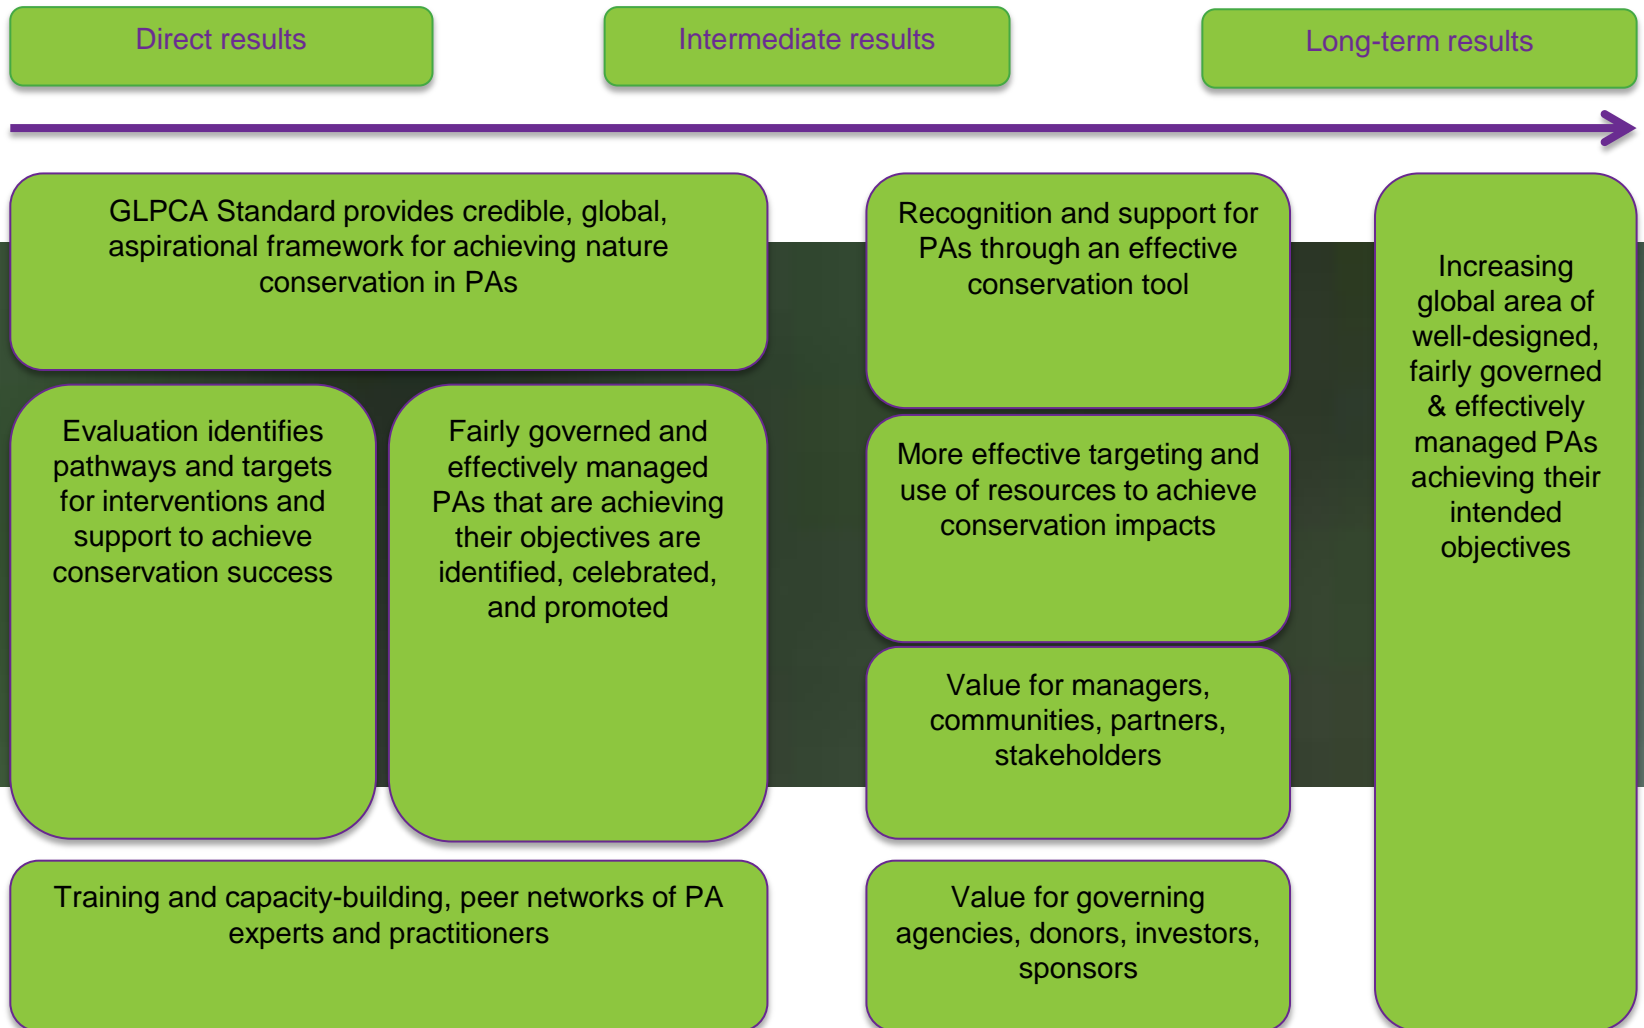

What is the IUCN Green list?

- a **global standard** for conservation success
- **adaptable** to the local context of any country or region
- a **voluntary** commitment
- an incentive measure to **improve performance**
- a **credible**, independently assured evaluation procedure
- a **global recognition** for protected areas and their staff
- a tool to encourage **conservation outcomes**
- applicable to **any protected or conserved area**; from World Heritage Areas to locally-managed marine areas.
