l'indispensable adaptation. »

Europarc Climate Change Workshop

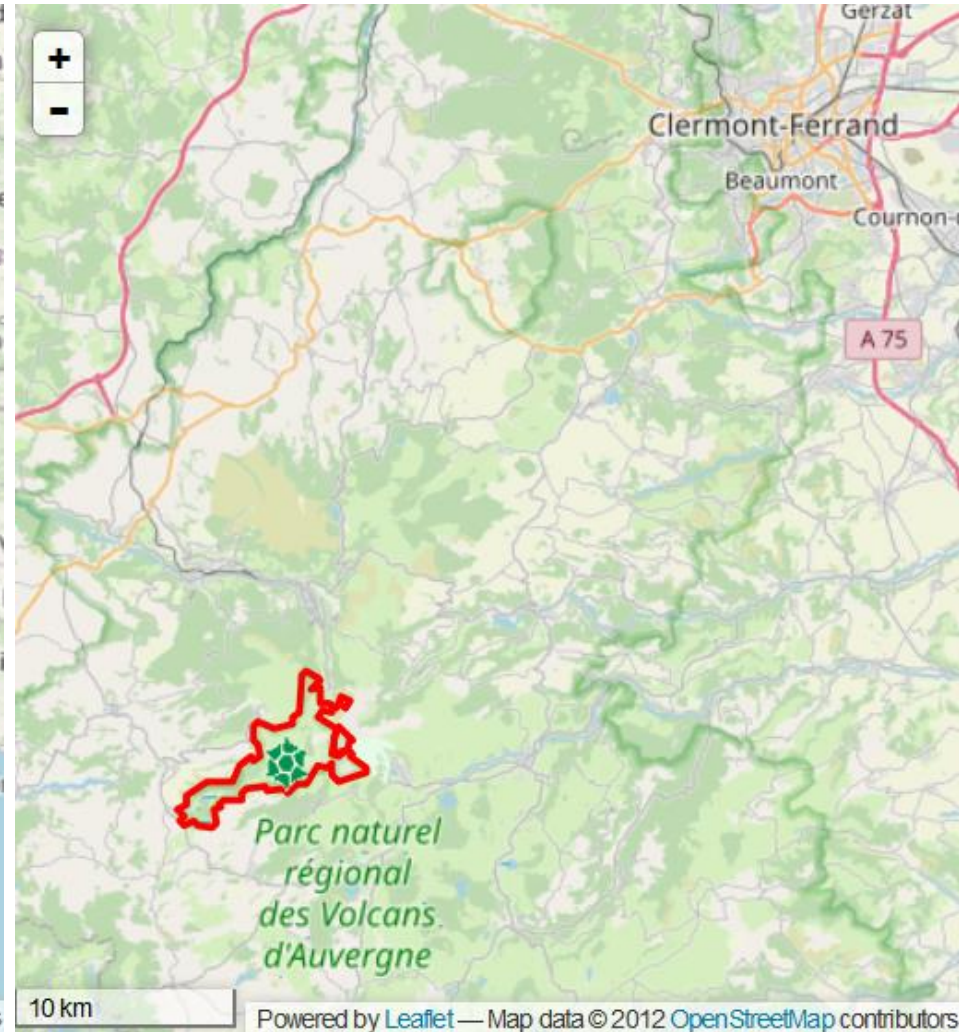

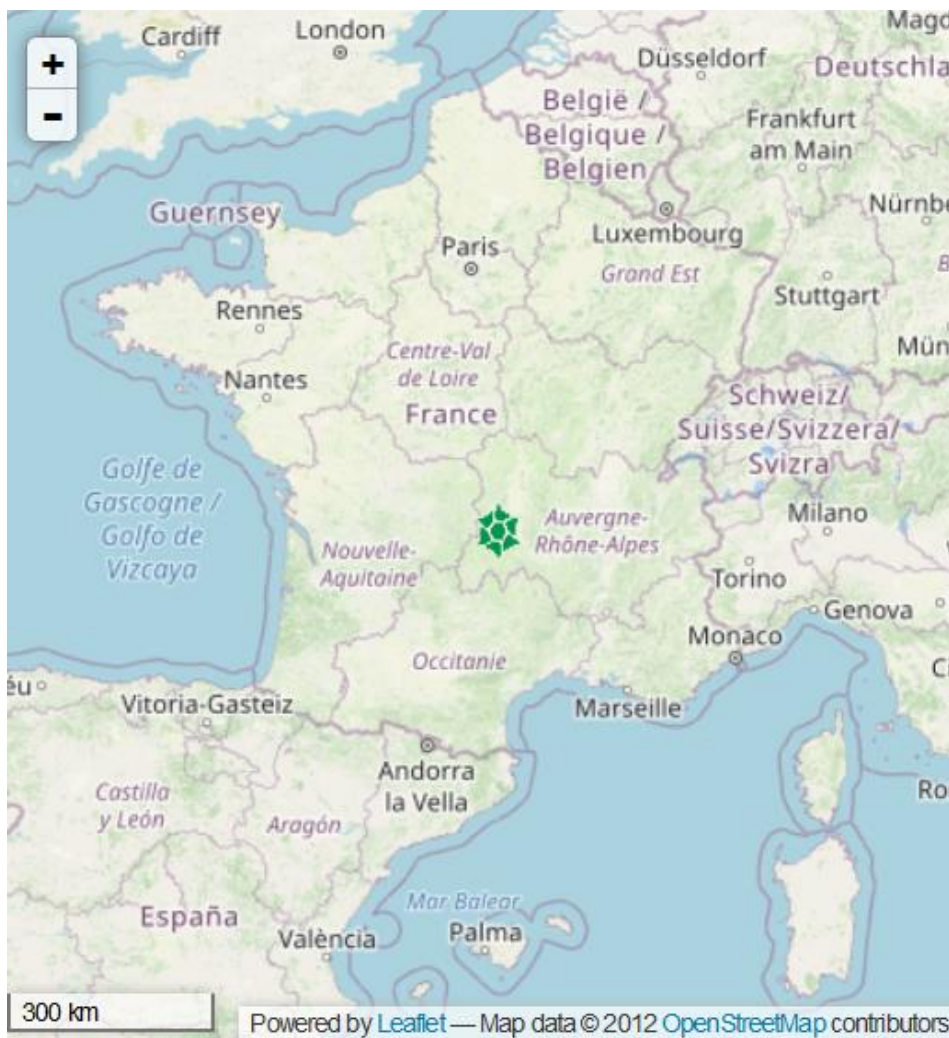

Key learnings

Iris Lochon - Chastreix-Sancy, Auvergne

Involving stakeholders? Yes, but how?

Chastreix-Sancy national reserve

→ In Massif central, 50 km from Clermont-Ferrand

Chastreix-Sancy national reserve

1894 ha
Diverse habitats

Chastreix-Sancy national reserve

1894 ha
Diverse habitats

48 Landowners
26 Farms
3 Ski resorts

Chastreix-Sancy national reserve

1894 ha
Diverse habitats

48 Landowners
26 Farms
3 Ski resorts

Tourism
attractivity

in summer \approx
200 000 visitors

→ **Assessing vulnerability with stakeholders:
get information and sensibilise them**

How involving stakeholders?

Natur'Adapt framework:

- 1/ Main climatic parameters?
- 2/ Sensitivity: how impacted?
- 3/ Exposition: positive or negative?
- 4/ Adaptive capacity: how adaptable?
- 5/ Pressures (natural or anthropogenic): help or limit?
- 6/ Vulnerability

How involving stakeholders?

Natur'Adapt framework:

- 1/ Main climatic parameters?
- 2/ Sensitivity: how impacted?
- 3/ Exposition: positive or negative?
- 4/ Adaptive capacity: how adaptable?
- 5/ Pressures (natural or anthropogenic): help or limit?
- 6/ Vulnerability

→ « Translate » questioning for each stakeholders

How involving stakeholders?

Natur'Adapt framework:

- 1/ Main climatic parameters?
- 2/ Sensitivity: how impacted?
- 3/ Exposition: positive or negative?
- 4/ Adaptive capacity: how adaptable?
- 5/ Pressures (natural or anthropogenic): help or limit?
- 6/ Vulnerability

→ « Translate » questioning for each stakeholders

- Farmers: **interviews**
- Tourism professional: **internet survey**, *outdoors activities*
- Experts (researchers, technicians, naturalists): **internet survey**, *natural aspects*

Some tips for interviewing farmers

Natur'Adapt framework:

- 1/ Main climatic parameters? 
- 2/ Sensitivity: how impacted?
- 3/ Exposition: positive or negative?
- 4/ Adaptive capacity: how adaptable?
- 5/ Pressures (natural or anthropogenic): help or limit?
- 6/ Vulnerability

Interviews of farmers

**« good or bad years
due to whether »**

Some tips for interviewing farmers

Natur'Adapt framework:

- 1/ Main climatic parameters?
- 2/ Sensitivity: how impacted?
- 3/ Exposition: positive or negative?
- 4/ **Adaptive capacity**: how adaptable? —————→
- 5/ Pressures (natural or anthropogenic): help or limit?
- 6/ Vulnerability

Interviews of farmers

**« did you
already change
some practice? »**

→ Guidelines Interviews

Some tips for experts survey

Natur'Adapt framework:

Researchers survey

1/ Main climatic parameters?

2/ **Sensitivity**: how impacted?

3/ **Exposition**: positive or negative?

4/ **Adaptive capacity**: how adaptable?

5/ Pressures (natural or anthropogenic): help or limit?

6/ Vulnerability

« **Level of
confidence** »

→ Experts survey

Some tips for tourism survey

Natur'Adapt framework:

- 1/ Main climatic parameters?
- 2/ **Sensitivity**: how impacted?
- 3/ **Exposition**: positive or negative?
- 4/ **Adaptive capacity**: how adaptable?
- 5/ **Pressures** (natural or anthropogenic): help or limit?
- 6/ Vulnerability

Tourism survey

« **outdoors
activities** »

« **sports
events** »

→ Tourism survey

In conclusion Involving stakeholders

Advantage

- Bring information (not only for diag)
- Create or maintain links
- Listening posture
- Sensibilise (+ conference and exhibition)

Disadvantage

- Need to adapt to each stakeholders
- Take time (a lot of time !)
- Reserve representation

→ It's necessary in the context of climate change

In conclusion Involving stakeholders

Advantage

- Bring information (not only for diag)
- Create or maintain links
- Listening posture
- Sensibilise (+ conference and exhibition)

Disadvantage

- Need to adapt to each stakeholders
- Take time (a lot of time !)
- Reserve representation

→ It's necessary in the context of climate change

Thanks !
