Food for thought:
Wildfires and the roll of natural grazing and **farming** to reduce the fire risk
+ Q&A
By João Melo

16:50 – 17:00

Last comments and
Conclusions

The questions

1. What are **the key challenges** of climate change that are affecting farmers in and around your Protected Areas? **How** these challenges **are impacting** your (of your protected area) **dialogue** with the farmers?

In particular please consider especially: fires, water scarcity, alien species, other if there are (specify)

2. **How** the park manager or the public authority **can take into account** these challenges? What are you doing? What do you think it is necessary to do?

3. **How can** the **EUROPARC** Federation **support** Protected Area managers, or managing authorities, in doing so?"
